### PEORIA REMODELER EARNS CERTIFICATION IN UNIVERSAL DESIGN/REMODELING

Peoria, Arizona, January, 1, 2016 --- Todd Whittaker from Todd Whittaker Drywall, Inc. in Peoria, Arizona recently earned the designation of Universal Design Certified Professional (UDCP) from the National Association of the Remodeling Industry, (NARI).

A Universal Design Certified Professional (UDCP) designation proves the remodeling contractor's superior knowledge, technical comprehension and skill in principles attractive not only to those who wish to age-in-place but also families with special needs and families that are forward thinking. A UDCP proves knowledge in the seven principles of Universal Design, how to interview clients with an understanding and consideration of their special needs, and finally the how-to of building these projects.

"Certifications like those offered by NARI", says Todd Whittaker, "are not only a means to become further educated in a particular aspect of remodeling such as Universal Design, but are pertinent in our ever-changing industry. Our commitment to staying on top of design trends and practices sets us apart and I am honored to carry the UDCP designation to showcase our dedication to continuing education."

NARI's UDCP program measures skill and expertise valued not only by other professional remodelers, but by consumers as well. Highly respected by those who have achieved the designation, the UDCP program identifies professional remodelers who have undergone comprehensive review and testing in areas of universal design/remodeling. In addition, they must also adhere to NARI's strict Standards of Practice and Code of Ethics.

NARI is a professional association whose members voluntarily subscribe to a strict code of ethics. Consumers may wish to search [www.RemodelToday.com](http://www.RemodelToday.com) to find a qualified professional who is a member of NARI.
